## TCP vs UDP

A comparison of transport layer protocols.

### Important Note

TCP provides reliable delivery, while UDP prioritizes speed.

| Feature  | TCP    | UDP    |
|----------|--------|--------|
| Reliable | Yes    | No     |
| Ordered  | Yes    | No     |
| Speed    | Slower | Faster |

### Quick Revision Checklist

- Understand 3-way handshake
- Know common port numbers
- Differentiate between IPv4 and IPv6
